

SILVER DIRECTORY LISTING INFORMATION

You may upgrade your free Bronze directory listing to Silver level in one of two ways:

- a) Free of charge simply by adding the DATACENTRE.ME (DCME) company logo on your corporate website, together with some information about our organisation (which we will supply) and a hyperlink to our website. Please contact us for full details
- b) Alternatively, you may prefer to pay £250 + VAT for your 12-month upgrade

You will benefit in the following ways:

- Your company will receive a Silver directory listing which will feature above the Bronze search results within the DCME online directory
- You may post a company description of up to **50 words** within your directory listing
- Your Silver directory listing will comprise your company name, contact email and telephone number, website, **3 social media links** and mailing address
- Your listing will feature in up to **4** directory sectors
- Your company logo will be displayed in the search results and within your directory listing
- You will be able to promote and share your directory listing on social media platforms
- Your directory listing will be renewed annually. A member of the DCME Team will contact you to confirm that your listing is still up-to-date at time of renewal. We will need a link to the page on your website that lists our company info, logo and link to our website or, if you prefer to pay for your Silver listing, you will be invoiced £250 + VAT
- Your details will be added to the DCME mailing list so you will be kept updated regarding event launches and developments within the DCME network

Please note that directory listings must be associated with a corporate email address and valid company website.

We encourage all DCME website sponsors to actively support the DCME network by engaging with DCME posts on social media and being active members of the DCME LinkedIn discussion group.

If you would like to make an enquiry or upgrade to a Silver DATACENTRE.ME directory listing, please submit your enquiry [here](#).
